

I am concerned about LPFM replacing the FM translators and forcing national or regional services like K-LOVE off the air. K-LOVE provides the Tucson area with the only FM contemporary Christian music station. If K-LOVE goes off the air it could get replaced with a station that does not provide the Christian music preferred by listeners. Christian music is positive and encouraging uplifting the soul and well being of a person. K-LOVE also provides community announcements and prayers for the listeners. It would be a great loss to have K-LOVE forced off the air. Please reconsider replacing the FM translators.

Sincerely yours,  
Joe D. Padias
